

PAGES	PAPERS
1 - 6	<b>Experimental Study on Formaldehyde Emission from Environmental Protection and Energy-Saving Alcohol Fuel for Vehicles</b> <i>Dandan Liu, Shigang Li, Hui Liu.</i>
7 - 14	<b>Design of the Lower Control Arm of an Electric SUV Front Suspension Based on Multi-Disciplinary Optimization Technology</b> <i>Zhenqi Yu, Huifang Jia, Xingyuan Huang</i>
15– 21	<b>Accurate Modeling and Numerical Control Machining for Spiral Rotor of Double Rotor Flowmeter</b> <i>Chunyan Tian, Hai Jiang, Chaochao Chen</i>
23– 27	<b>Simulation Analysis of the Effects of EGR Rate on HCCI Combustion of Free-piston Diesel Engine Generator</b> <i>Chunhui Liu, Kechuan Yi</i>
29– 38	<b>Space Trajectory Planning of Electric Robot Based on Unscented Kalman Filter</b> <i>Chang Kuang, Xiaoyi Zheng</i>
39– 49	<b>The Electric Vehicle Torque Adaptive Drive Anti-Skid Control Based on Objective Optimization</b> <i>Yingqi He</i>
51– 58	<b>The Role of Double-Cylinder Insulation Technology in Ensuring the Quality of Bored Pile Concrete under Negative Temperature Condition</b> <i>Ziying Liua, Tianlai Yu, Ning Yan, Zhihai Piao, Hongxiang Zhang</i>
59– 63	<b>Wear Properties of Aluminum Alloy 211z.1 Drilling Tool</b> <i>Yong Liu, Lin He, Sen Yuan</i>
65– 71	<b>Calculation Method of Stiffness and Deflection of Corroded RC Beam Strengthened by Steel Plate</b> <i>Qian Zhang, Huang Tang, Shihui Guo</i>
73– 82	<b>Electromechanical Coupling Model of AC Asynchronous Motor Drive System Based on Multiscale Method</b> <i>Qiuping Pan, Jiexiang Zhang</i>
83– 91	<b>Impact Evaluation of Industrial Energy Consumption Based on Input-output Complex Network</b> <i>Ren Zhou, Xinhua Wang</i>
93– 97	<b>A New Method to Analyze CNC Lathe Faults Based on Gutenberg–Richter Curve</b> <i>Jie Yu, Zhiwei Zhu, Tiebin Wang, Yue Yao, Jiexiang Ding</i>

- 99– 103      **Analysis of Activity Parameters of CNC Machine Tools Failures Based on Gutenberg–Richter Curve**  
*Jie Yu, Zhiwei Zhu, Tiebin Wang, Yue Yao, Jiexiang Ding*
- 105– 112      **Fault Status Information Monitoring Technology for Large Complex Electromechanical System**  
*Baoli Wei, Hongtao Jiao*
- 113– 121      **Method of Power Performance Fault Alarm of Hybrid Electric Vehicle Based on Hydraulic Technology**  
*Wenjuan Liu*
- 123– 132      **Mould Pollution Control Model of Aluminum Alloy Equipment Considering Ultraviolet Radiation Intensity**  
*Wenbo Yang, Gang Li*
- 133– 142      **Fault Tolerant Control Method of Power System of Tram Based on PLC**  
*Zhenzhen You*
- 143– 152      **Design of Mechanical and Electrical Control System of Mixed Liquid Gas Pressure Energy Storage Based on Maximum Power Point Tracking**  
*Jia Zhang*
-
